

# Institut For Protein Innovation: NGS Analysis for Antibody Discovery

**Miseq:**

**Generated:** 2026-01-15 20:43:19

**Results folder:** /alphafold/combio/NGS/  
NGS\_20240912\_MiSeq88/results

---

# 1. Sequencing Depth

Total vs merged reads per sample

## 2. Cross-Target Contamination

% of reads from cross-target VH-CDR3

### 3. Unique CDR3 by Antigen & Condition

### 4. Final Leads Distribution

## 5. Shannon Diversity

## 6. Shannon Min2 Diversity2

## 7. Top 50 Most Prevalent VH-CDR3 Pairs

*prevalent\_targets > 1 = cross-target contamination*

| vh_scaffold | cdr3_aa            | vh_cdr3                  | prevalent_t |  |
